

We currently have opportunities for:

Trailer, Service and Refrigeration Technicians

*We are seeking people who
want to move their careers forward!*

Persons we are looking for will maintain trailer equipment, install and service Transport Refrigeration Units and Auxiliary Power Units in trucks, trailers, and rail cars.

Successful candidates will complete equipment inspections, repairs, preventative maintenance and keeping records. Perform diagnostic tests to determine unit readiness and identify deficiencies. Perform installs, repairs, adjustments and replacement of refrigeration components.

MCT offers an excellent benefits package, competitive pay, and training both on-the-job and in classroom.
