

A Better Way

FLOE International, Inc.

ASSEMBLERS

Immediate openings for **Assemblers**. In this position, you will be responsible for assembling docks, lifts and/or trailer products in a manufacturing facility. Assemblers may operate and maintain machinery, ensure production standards are met, finalize products and prepare them for customer delivery. Responsibilities include keeping the production area clean, preparing machinery and equipment for use, working the production line as instructed, and strictly following health and safety guidelines, while maintaining production standards and working towards improving productivity without compromising quality.

All applicants must be able to work from verbal instructions or work orders, use hand tools, power tools and automated equipment. Applicants must be able to understand basic math, push/pull without assistance, lift products with varying weights occasionally, twist, bend, reach, and have the ability to stand for long periods of time.

ALUMINUM WELDERS

Immediate openings for Aluminum Welders. In this position, you will be responsible for welding components using a MIG or TIG process and assembling products per specifications and in accordance with the production schedule. This position requires certification in company specific structural welds where weld strength is critical. You will also be required to perform some assembly and/or other miscellaneous tasks as assigned.

All applicants must be able to work from verbal instructions, prints, or work orders, use hand tools and perform complex welds. You must also have experience and knowledge in the principles and methods of welding, skill in the operation of welding equipment and tools of the welding trade, and experience reading and following blueprints.

Preferred 2 years of MIG/TIG experience, ability to pass internal welding test and good mechanical and mathematical aptitude.

Floe offers competitive wages and a comprehensive benefits package. Starting wage based on previous experience and work history.
