

Production Machine & Electro-Mechanical Maintenance Operators

Dynamet Incorporated, based in Washington, Pa., is a leading domestic and international supplier of titanium alloy products. Acquired by Carpenter in 1997, Dynamet supplies titanium bar, wire, fine wire, and precision shapes for the aerospace, medical, consumer, motorsports and recreation industries. Committed to offering excellence and innovation in the manufacture of titanium and other specialty metal products, Dynamet ensures strict quality controls through its testing and analysis laboratory.

Dynamet is a member of Carpenter's Performance Engineered Products division and maintains a second manufacturing facility in western Florida.

Production Machine and Electro-Mechanical Maintenance Operators.

You will earn \$20.04/hour to start and progress to our top rate of \$25.05/hour within two years. Successful machine operator candidates will have mechanical aptitude and 1-3 years metal manufacturing experience in public, private or military environments. Successful electro-mechanical maintenance operators should have a minimum 5 years industrial experience in 440/220/225 volt electrical work; troubleshooting, repairing and rebuilding electrical and electronic components; AC and DC motors and control circuits; and communications equipment. All must be able to work any shift, weekends and overtime. We offer an excellent compensation and benefits package including medical, dental, vision, life and pension.

**We invite you to apply at Carpenter's website
